In 2010 Eden Marine High School became a National Partnership targeted school. National Partnership Programs provide funding to improve Literacy and Numeracy levels of students as well as a range of other programs. Two of the programs instigated by EMHS were Literacy and Numeracy Interventions for identified students. Students were identified from NAPLAN testing results.

Ms Sally Juhasz (literacy) and Ms Rachael Smith (numeracy), learning support teachers, withdraw small groups of identified students and through explicit teaching methods to improve the National benchmark levels of these students.

After three years of delivering these programs in outside areas and available spare classrooms and different places each lesson period, it was recognised that a designated teaching space was required to deliver these programs more effectively, hence the construction of the Gumnut Learning Centre.

Principal’s Report Week 9 Term 1 2013

It was pleasing to see the large number of parents and students who attended the Digital Education Revolution (DER) information night on Wednesday March 13th. Almost all Year 9 students have now received laptops and the feedback has been very positive. It is important to take the opportunity to emphasise several points regarding the issue of laptops to students.

- The laptops are “on loan” to the students. This means the students will be required to return them to the school when they complete Year 12 or if they leave Eden Marine High School.
- The laptops are a “prized” piece of technology that can be used as a wonderful learning tool. But with access to this technology, also comes with it expectations and responsibility. The Charter of Use specifically outlines responsibilities in relation to damage, misuse and theft. Significant repairs i.e. those unable to be repaired at school will require the laptop to be sent away for repair for a $250 cost. Students/parents will be responsible for meeting this cost.
- The school reserves the right to withhold a laptop for a variety of reasons. Misuse and inappropriate use of software will result in a student laptop being withheld. Consideration may also be given to students who do not bring their laptop to school or refuse to meet learning expectations through poor attendance and refusal to engage in their learning.

It is with a real sense of sadness that we farewell Mr. Bob Lind who has taken leave pending retirement. Mr. Lind has been a Deputy Principal at Eden Marine High School for seven years. During this time Mr. Lind has demonstrated a very student-centred approach to his challenging role in the school. His wisdom, sense of humour and love of teaching has been greatly appreciated and admired by those who have worked with him. On behalf of the staff, students and school community, I wish him well for the future.

Mr Ian Moorehead
Principal

A five piece band from the school have nominated for Youth Rock 2013 and have been selected as 1 of 40 school bands to perform. This is an amazing effort as this opportunity is offered to over 700 schools state wide before selection. Mr Martin and the students are planning a series of events to support the students in participating. A more detailed report will follow in this newsletter.

There will be two staff development days held on Monday April 29th and Tuesday April 30th at the beginning of Term 2 when students will not be attending school. Students were most impressed when I informed them on assembly last week. A second day has been gazetted by DEC to allow for staff to receive professional learning support in relation to the Australian Curriculum. This curriculum will begin implementation in 2014 in a number of subject areas from K-10. Opportunities will be created for subject teams to work closely with our partner schools to strengthen the continuum of the curriculum from primary school to high school.

Information meetings have been held at Eden High, Pambula Public and Merimbula Public as part of the Yr. 6 to 7 transition program for 2014. Mrs Shoobridge, as Year 7 Adviser 2014, is very excited to be able to connect with students and parents during the year to make the transition to high school as successful as possible. Our transition team will be working very closely with stage leaders in our partner schools to provide a number of orientation and curriculum specific initiatives as part of our transition program. I encourage parents of prospective students to contact the school for further information. A great way to find out more about the school is to get onto our newsletter email list. Just contact the school and provide your contact information so the school newsletter can be emailed out to you on a regular basis.

Year Adviser for 2014, Mrs Shoobridge.

It is with a real sense of sadness that we farewell Mr. Bob Lind who has taken leave pending retirement. Mr. Lind has been a Deputy Principal at Eden Marine High School for seven years. During this time Mr. Lind has demonstrated a very student-centred approach to his challenging role in the school. His wisdom, sense of humour and love of teaching has been greatly appreciated and admired by those who have worked with him. On behalf of the staff, students and school community, I wish him well for the future.

Mr Ian Moorehead
Principal
Gumnut Learning Centre continued ...

Alan Kiddle, Head Teacher for Industrial Arts, proposed building the learning centre with the senior students of the Construction classes. This project would provide them with the opportunity of constructing a building from the ground up, experiencing all aspects of the building process.

Mrs Rhonda Douglas, Learning Support Coordinator, acquired the role of Project Manager and with the support of local businesses, service clubs and the school café Waves, we were able to bring the project to the present day.

Now students have a private, quiet and designated area to conduct their learning. The building has encouraged the students to take pride and ownership of their learning and they are excited and happy to have a comfortable and industrious place to partake in the Intervention programs.

The school café Waves is a program within the school providing mentoring from senior students and learning support officers, Jenine Grant, Melissa Hunter and Claire Hoffman. This program provides an opportunity for students to learn the protocols and work involved in providing café service to the school community. The revenue raised from the café has been invaluable in the purchase of building materials. Waves is open at recess every Friday and the custom of the students and teachers has enabled the capital to be raised to build the Gumnut Learning Centre.

Without the support of the school community, the generosity of local businesses and service clubs, this venture would not have been possible. We thank you all, especially: ESKY, Peter Buckley, Waves Café, Carpet Court Pambula, David Potter Electrical, Steeline Pambula, Sapphire Coast Plasterboard, Blue Ridge Timber and Noel Ferguson.

An opening ceremony will be held on Friday, 12th April at 10:00am to celebrate our new Learning Centre with morning tea provided by Waves Café.

LIBRARY NEWS

As the term is drawing to a close, it is time to remind students that your books need to be returned if the due date for return has come (or gone, in some cases). Don’t forget you can renew your loan if you have not finished reading your book.

Mrs Taylor can make lots of recommendations for your reading enjoyment and with the holidays coming up it is a good time to stock up – so come in and have a chat.

Some of our latest books are:

- To Brave the Seas by award-winning author, David McRobbie. It’s the story of fifteen-year-old Adam, who joins Britain’s Merchant Navy. It’s an adventure story, an historical perspective on the war, as well as a story of mateship, courage and persistence.
- Song in the Dark by Christine Howe is a hard-hitting story of addiction, betrayal, love and hope. A kind of hope that’s able to sustain you even when you’re living in a situation that seems unbearable.
- All This Could End by Steph Bowe has a highly improbable plot that somehow works absolutely perfectly. Nina’s family robs banks and Nina is over it. The family has to keep moving and Nina has to keep changing schools, losing friends and living in fear of discovery. The book is funny and suspenseful.
- The author, Alex Scarrow, who writes the Time Riders series has had an interesting career path. He used to be a rock guitarist and games designer. Wow! Check out his blog at www.time-riders.co.uk to share his favourite concepts for games that never got made (although many of them did), as well as giving an insight into how he thinks about his material.

Websites to investigate:

- Hamlet, Macbeth and a Midsummer night’s dream www.rsc.org.uk An exceptional resource for the study of these three plays, this site is packed with appealing and insightful material for students of Shakespeare. Students can watch Activities from the rehearsal room, rehearsal scenes and performance clips. Looking at key ideas forms the basis of the Macbeth and Hamlet presentations; the material for A Midsummer Night’s Dream is based on scene studies.
- Book drum: beyond the page: a wiki style website for readers, it encourages book lovers to upload their research on a favourite book. Each book profile includes a Summary, notes on the Author, an orientation Map, notes on Setting, Bookmarks or annotations, a Review and a Glossary.

Happy reading!

Mrs Kaylene Taylor, Teacher/Librarian
EMHS Youth Rock - Nitrogen Narcosis

Eden Marine High School is pleased to announce the success of newly formed rock band Nitrogen Narcosis in a state-wide competition called Youth Rock.

Taylor Hewitson, Patrick Rizzetti, Shania Aldridge, Sam Vanderme and Daniel Martin have been selected in the top 40 of the event that has applications from up to 700 schools. The students will travel to Sutherland to perform songs in the semi-final of this major rock band competition on the 10th of April.

Industry based workshops will be a major part of the students’ day at the Sutherland Entertainment Centre as they will be taking part in master classes run by professional musicians, sound engineers, song writers and producers. The students have composed two original songs over the last month to present to a panel of judges and audience.

They are currently working on fundraising strategies to help finance the transport and accommodation costs to attend the event. Mr Martin stated that “We have put multiple entries in to this competition in the past and haven’t been able to get this far, I am very excited for the students and think this is an excellent opportunity for them and the school”.

The student body can look forward to hearing the songs and watching a video documentary of the trip in Term II.

Mr Sam Martin, Music Teacher

A Big Thanks to the Lion Club

Two of our Year 11 students, Cameron Scerri and Tyson Gaudie have been selected to participate in the Navigators Program with ‘Outward Bounds’ these autumn holidays. Outward Bound courses are highly respected, sort after experiences for young people. They are offered throughout Australia and are very expensive.

The Navigator Course will extend and develop our students through the use of outdoors activities, problem solving and random character building tasks. As a result, Cameron and Tyson should gain a deeper understanding of themselves, their interests, strengths and motivating forces. It is also hoped that any leadership qualities will rise to the surface.

The Eden Pambula Lions Club has demonstrated a long history of working with youth in the local area. They see the immense value of the Outward Bound Program and have initiated the sponsorship of these two students. We wish to thank them for their kind support and urge our parents to support all Lion’s activities whenever possible.

We are on the Internet – check our website at http://www.edenmarine-h.schools.nsw.edu.au

School Surfing Back At Merimbula

After a number of years hiatus school surfing had been held during Thursday sport at Main Beach and Short Point, Merimbula.

Week one was an early disappointment but Mr Prowse took the Surf Awareness Group on a major run swim run activity in a howling nor-easter. Week two took an amazing about face with a perfect three foot left and right peak at Short Point. Lots of hooting and encouragement from all surfers made the session enjoyable with all the group staying on until well after ‘bell time’. Kye Byrnes got plenty of good waves but earned the ire of Mr Langford by dropping in on him on the wave of the day, which earned him two detentions.

Jai Miller (the current bushy champ) surfed well along with Zac Slater and Scott Ferguson. Amie Standen and Rachel Hehir continually get better with each surf.

Week three saw Short Point reforms where Lachie Hawkins dominated while Callan Sinclair got the best waves. Corey ‘Chippers’ Trease enjoyed some high speed trims.

Thanks to Simon At Merimbula Surf Shop for letting us store our boards. See ya soon Big Wave Dave!
Maths Online
There is no doubt that mathematics can be difficult for high school students and all students experience difficulty at some time, regardless of the level they are attempting. We can probably all relate to this from our own time at school. Parents and carers often want to help their child in this subject area, but may not have the confidence to do so.

This year we have the privilege of a whole school Maths Online subscription. Your child has an individual login to this Australian site that allows them to get tuition, problem sets and feedback on performance from all areas of the mathematics curriculum. The mathematics staff are regularly setting tasks from this site for homework and also recommend the site as a suitable source of revision material. Students are also able to work ahead in topic areas or use the site as support for their classroom explanations. I strongly recommend that you spend some time with your child and become familiar with the operation of this website.

www.mathsonline.com.au
To support student learning in mathematics we are also running a “Mathematics HELP room” at lunchtime on Wednesdays. Maths teachers and a team of talented Year 12 mathematics students, are available to help students from all years with any problems. Students are encouraged to bring any homework issues or maybe just something they did not quite understand in class, and get some help. Often it only takes five minutes to get a student back on track and it is great to see their confidence grow. This assistance is available to all students, so please encourage your son or daughter to attend. Students are welcome to eat their lunch in the room, while getting assistance.

With term tests and examination periods upon us, it is time to start to prepare. The mathematics staff encourages all students to be doing some regular revision, rather than trying to cram for tests. For junior students, 20 minutes of mathematics homework or revision each week night will make a substantial difference to the student’s confidence.

Paul Gilbert
Head Teacher Mathematics.

Bega Valley Community Drug Action Team Leadership Program
Despite the best efforts of traffic controllers and a bus crashing into the front of a house in Merimbula, seven Year 9 students travelled to Bournda Environmental Education Centre on Thursday, 21st March to participate in a combined leadership program with students from other high schools in the Bega Shire.

The school was well-represented by Doug Caldwell, Ally Crowe, Mardi Longford, Ben Hopkins, Tayla Grant-Danvers, Ryan Casey and Kobie Twigg.

The weather was fine and warm on the day when our students combined with others from Bega High School, Sapphire Coast Anglican College and Lumen Christi College. They enjoyed bike-riding, games, surfboat challenges in amongst the serious focus of the day - planning a Bhuzz Phest program for students in their high schools and planning for the CDAT ruMAD camp in October of this year.

EMHS P&C
Invite Parents and Carers to
A Black Dog Institution Presentation on
‘Navigating Teenage Depression and how to build Resilience’.

Presented by Marion Fraser
on
Tuesday, 18th June 2013 at
EMHS Library from 6pm-7pm
Boys Basketball
On Monday the 4th of March, eight enthusiastic EMHS boys travelled to Batemans Bay to contest the Eurobodalla Zone Basketball.

The boys played with determination and great team spirit all day even though they did not win any of their games against Monaro, Batemans Bay and Bombala. The team stepped up at the end of the day and volunteered to stay behind and referee the grandfinal and man the timekeeping and scoring bench. This was greatly appreciated by the convenor of the carnival and the respective coaches.

Well done boys. Team members included: Harrison Warne, Arlen Brown, Ryan Armstrong, Harry Senior, James Wiltshire, Rory & Justin Goodridge and Joshua Wungluck.

A special thank you to Mrs Goodridge for her assistance in getting the boys to Batemans Bay.

Sailing Report
Every second Thursday for the past two weeks I have been going sailing at Quarantine bay all day. The first Thursday we went, it was sadly raining so we weren’t actually able to go out onto the bay. However, we learnt about what direction your sails should be in, according to the wind direction. This was really helpful as when we went out next time, we knew where they were supposed to be. We also did knot tying which was actually quite fun! We learnt how to tie knots like a figure of eight so we could use them on the sail boat.

Another great thing about sailing is lunch. Miss Hornsby spoils us with delicious hamburgers, sausages and salads, which go down a treat after working up an appetite on the seas in the morning.

When we got to sail the following Thursday, it was really fun. Even though I’ve been sailing before, I still steered my group into another sail boat that was moored at quarantine bay. My group took a long time to get out into Two Fold Bay as the wind was blowing onshore so it was hard to get out. When we finally got out, we sailed around a bit and practised turning, which is called tacing or jiving. Once we got the hang of it, it was great. We sailed out towards the Chip Mill before realising that we were supposed to be with the other groups.

On the sail boat there are three people, you can fit four but it’s a bit of a squeeze. One person is the skipper, they steer, and another person does the main sheet, which means they pull on a rope that lets the main sail in and out. And the other person does the jib, which is the smaller sail. They have to change the jib to the other side, when we tac. Another thing that you have to worry about is the boom. The boom is a mental pole that lies horizontally, about level with your head. Every time you turn it swings around so unless you what to get hit by it you have to duck!

Being able to sail for a full day on Thursday’s is such a great experience and hope they continue it in the future!

Written by Claire McKenna, Year 10
Mentoring Experience at Berry

In the first week of November 2012 I travelled to Berry, South of Sydney, to stay at a kids’ camp. The camp was for hearing impaired primary students and I was a youth leader.

My role was to encourage the students to get involved in the scheduled activities, develop confidence in new situations, have fun, make new friends and obey the rules.

Some of the special events were canoeing, swimming, kayaking, rock climbing, rope courses and cook outs. All of these activities were a lot of fun but each with some risks. It was important that the kids listen and understand instructions. It was my job to make sure the kids did this. Fortunately there were not accidents and the kids were really proud of themselves and their achievements.

The kids made me laugh. They were pretty ‘coot’ (‘cute’), funny, sometimes mischievous and definitely needed the extra help that mentors like myself provided.

The night activities like indoor basketball and craft with music playing in the background were really enjoyable. I could use my artistic and interpersonal skills to relate well with the kids. The food was great too. The best meal was ravioli and salad.

In my opinion the camp was successful because the kids did gain confidence, were happy and behaved themselves and they would have liked to do it all again. For myself, I felt privileged and thankful to have been invited to participate. The kids especially loved having me there and like them I would do it all again.

Written by Shania Aldridge, Year 9

IMPORTANT NOTICE

Students will return to school for Term II on Wednesday 1st May for students.

Staff return on Monday, 29th April and Tuesday, 30th April only.

NAPLAN TESTING

What is NAPLAN?
National Assessment Program for Literacy and Numeracy (NAPLAN) is a program for Literacy and Numeracy assessment of students across Australia.

Who participates in NAPLAN?
All students in years 3, 5, 7, and 9 participate in all schools across Australia. Adjustments and disability provisions are provided so all students can access the tests.

How is NAPLAN conducted?
The examination papers arrive in the schools and are kept in a secure manner until the time for administering the tests. The tests are conducted over 3 days as indicated.

Tuesday, 14th May
• Language Convetions
• Writing

Wednesday, 15th May
• Reading

Friday, 17th May
• Catch up on missed tests.

Why do NAPLAN?
The data derived from these tests provides individual student diagnostic information that directs teaching practise, individual intervention programs and provides insight into individual student’s learning. The data also provides information to education bodies that determine a wider range of services available to the education sector.

It is an important experience for students to participate in a formal examination process as they will experience this situation in their future schooling.

What happens if a student misses a test?
Opportunity exists on Friday 17th May for any missed tests to be completed.

What can I do to assist my child?
Maintain a positive and encouraging attitude, express that they do their best in all exams as that’s what you would expect of all learning tasks and ensure they are well equipped with calculator and water bottle for the NAPLAN tests on the days.
**Tennis Coaching In Eden**

Sapphire Coast Tennis is starting a new program in Eden on a Thursday after school in term 2 at the Eden Tennis Club. We are Tennis Australia “Hotshots” deliverers providing pathways for juniors to enjoy their tennis. We are taking enrolments from children aged 5-16 years old. (Group Lessons)

For more information:
Please call James on 0409 315542
or check out our: website
www.sapphirecoasttennis.com.au

**FREE DENTAL TREATMENT**

The School Dental Service operates in the Bega Valley from the Pambula Community Health Centre. Appointments are available for all children from Preschoolers to 17 years of age.

You can access the service by ringing 1800 450 046 with your Medicare Card ready.

The service is orientated to prevent decay by providing early intervention with high priority going to preschoolers. Usually fissure seals and fluoride treatment feature in a child’s treatment plan, reducing the chances of tooth decay.

Children in pain are also treated as a high priority with emergency appointments put aside. Government Teen Dental Plan vouchers are accepted here, encouraging youth to remain in the service.

**FOR ALL DENTAL APPOINTMENTS & ENQUIRIES**

PLEASE TELEPHONE THE ORAL HEALTH INTAKE SERVICE
FREECALL 1800 450 046

---

**YOUTH WEEK ART SKILLS WORKSHOPS**

Explore design and printing techniques with artist Tanja Riese and make original small artworks - POSTCARD size. Two FREE art skills workshops will be run as part of Youth Week at the Old Bega Hospital. Workshop 1: Printing using linocuts on Saturday 6th April from 10am-3pm. Workshop 2: Solar Plate Printing on Sunday 14th April from 10am-3pm. All materials will be supplied with a maximum of 15 participants per workshop. Age range 12-24 years.

**BOOK NOW at Spiral Gallery, Bega. Ph 6492 5322 to secure your spot.**

Create works you can enter in Spiral Gallery’s POSTCARD Exhibition to be held in June 2013 at Spiral Gallery. Over 350 entries were received in 2012 and we are hoping for an even bigger exhibition in 2013. The exhibition will have a youth category with prizes awarded.

---

**WEP Student Exchange**

**Memories & Skills For Life**

Have the time of your life when you spend a summer, semester or year overseas as a WEP exchange student. Choose from over 20 countries around the world to complement your secondary studies with an international, cultural exchange experience.

You will be invited by a welcoming, volunteer host family to live and learn like a local teenager, attend school overseas, make new friends and return more mature, independent, goal-oriented and with a new outlook on life!

**Don’t Miss Out! Applications Closing Soon!**

Applications for long-term programs starting in August/September ’13 to Belgium, Canada, China, France, Germany, Italy, the Netherlands, Poland, Spain and the USA are starting to close in mid-April. Contact WEP for details.

**Scholarships & Early Bird Specials**

WEP is offering over 20 scholarships towards semester and year programs to Argentina and China in 2014! Early Bird discounts for programs starting in January ‘14 are also available.

Find Out More!

The BVCDAT “Mindbenders” Film Project 2013

BVCDAT (Bega Valley Community Drug Action Team) is inviting you to participate in our third running of “Mindbenders” - 2013. This Project involves students from each year and all four High Schools in the Bega Valley. Last year’s screening at the Picture Showman Cinema in Merimbula was won by students from Lumen Christi.

What’s it about?
We are inviting you to make a short film, no longer than 4 minutes, about your idea/ideas on alcohol and drug matters in the Bega Valley. It could be a documentary, a cartoon, a drama, a comedy, a filmed performance of music or drama – its up to you and your ideas, you could make the film alone or in a group. It could be a project as part of one of your School subjects or just something new that you would like to try.

Some ideas that your film could be about are binge drinking, safe partying, drink driving, crime, health etc.

We want to showcase your films both at each School and in the community so there are limits to what you can show in your film, it will be for general viewing. Usual school parental permissions may be required for filming and picture taking of students in the making of the films. There will be prizes as well donated by our generous sponsors.

What is BVCDAT?
BVCDAT is a small and enthusiastic committee, wanting to impact on alcohol and drug issues in the Bega Valley. BVCDAT has identified working with youth and targeting alcohol and cannabis as its main project areas. In your Schools we have conducted RSA (Responsible Service of Alcohol) Training and Leadership Camps for Year 9 students at Bournda.

How do you make the Film?
Some of you may have access either through school, friends or home to a camera-some may just want to use their mobile phone. If you have an idea, want to make a film but don’t have access to a camera then BVCDAT or your School will help. You will need to complete an Entry Form, which are available from Mr Cookson.

When is the closing date?
I will advise you soon of the closing date for entries. Please start thinking about and planning your entry. Our screening and presentation evening will be at the Picture Showman Cinema on 22nd July. If you have any queries, questions or issues please feel free to contact Paul Brunton or Russell Meers from BVCDAT on 64923228. We’ll be back to you with details of a Film workshop and other details for the Project soon.

We are on the Internet – check our website at http://www.edenmarine-h.schools.nsw.edu.au
Email: edenmarine-h.school@det.nsw.edu.au

CANDÉLO VILLAGE FESTIVAL

FAMILY FUN

There’s something for everyone at this year’s Candelo Village Festival – from a free opening concert to kids entertainment, immersive workshops, to a youth stage designed by and for young people. It’s really the perfect event for the whole family.

For the littlies, don’t miss out on catching Mr Tim and the Fuzzy Elbows who’ll woo you and wow you with a high energy adventure full of fun, crazy songs and tall tales. Mr Tim will present a fabulous free workshop on the morning of the festival on Sat 13th April, but you need to register by calling Kate Burke on 6493 2736. The Festival Parade is always a great one for the kids and it will be held on the Saturday afternoon of the festival. Also be on the lookout for hands on workshops and lots of opportunities to engage at the festival with a parade, fantastic sculptures and underwater landscapes set to transform the festival precinct.

This year the festival will open officially on Friday 12th April at 6:30pm, with a free opening concert ‘Water and Life – A Candelo Celebration’ for the whole community in Candelo Park.

Be enchanted under the stars as local choirs’ voices soar into the night, performing new works by local composers Kate Burke, Geoffrey Badger and David Hewitt, plus Sydney composer Dan Walker. Bring the whole family along for this free event at the new outdoor stage featuring the Candelo Community Choir, the Bega Valley Children’s Choir, the Candelo Singing Troupe, the South Coast Instrumental Program and many more. The concert will be followed by the screening of a kids movie under the Candelo Bridge, plus ABC Open’s Scary Stories (recommended only for adults) at the Candelo Town Hall at 8:30pm and a taster concert featuring some of the artists who’ll appear on Saturday. The ‘Water and Life’ Opening Concert is assisted by the Australia Council for the Arts, its arts funding and advisory body.

On the Saturday 13th April, the full line up of the festival kicks into gear and there’s lots on from midday to midnight. The Youth Stage will be pumping into the night and host 12 local music acts from bands such as Gerkin, The Pocket Cats and Platypi. Expect fresh raw talent as well as leading young solo songwriters from the valley Sarah Campbell, Callum Mactaggart and Nick Marshall. The program is handcrafted by the Candelo Arts Society youth team Momentum Music & Media which is supported by MusicNSW and is made up of a group of young people who are mentored to put on their own music events around the shire. Everything at the youth stage is for and by young people – programming, stage management and production management.

The Candelo Village Festival takes place from midday to midnight on Saturday 13th April with a fantastic line up of international, national and local artists lighting up the valley, and don’t miss attending the Opening Free Concert on Friday 12th April from 6:30pm.
